FELT CABLE TRAY

Designed by Hans Thyge & Co. // Produced by PJ Production

# FELT CABLE TRAY

We have a burning desire to turn waste into valuable products. One of the products that is produced from recyclable plastic is this Felt Cable Tray. The felt is made of 70% upcycled plastic bottles from the ocean, which is both environmentally friendly as well as looking authentic.

With our new Felt Cable Tray, we have combined the best of previous cable tray solutions and brought it together in a product that recycles waste material.

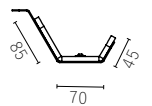

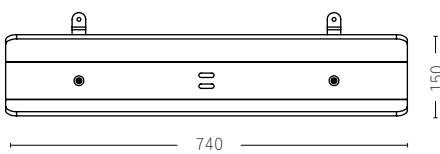

The cable tray is available in three sizes: 740 mm, 1150 mm and 1470 mm. If you are looking for more specifications, you can access the product sheet below.
